

IMAGINE NOW...

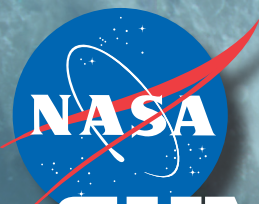

During the four years of the program we have achieved the following:

- Trained 530 educators on NASA STEM content
- Implemented NASA-themed summer camps for 10,075 youth
- Collaborated with 9 school districts
- Partnered with:
 - The University of Texas Center for Space Research
 - NASA Texas Space Grant Consortium
 - The University of Texas Pan American
 - Time Warner Cable Connect a Million Minds

All combined, this equals SUCCESS!

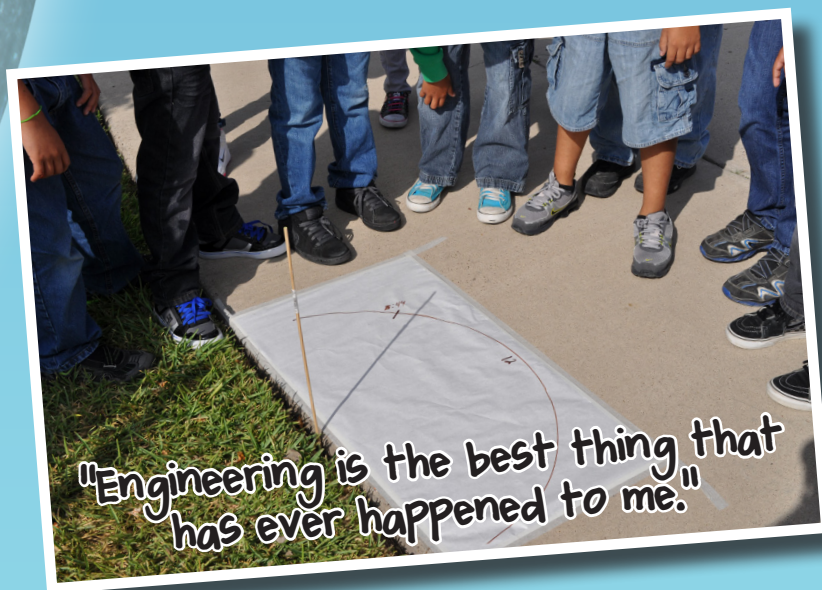

"Always reach for the stars."

SUMMER of INNOVATION

in the Rio Grande Valley

"I love working in this class. It was so much fun and a great challenge."

"Engineering is the best thing that has ever happened to me."

INNOVATE FOR THE FUTURE

"Engineering's everywhere."

Cratering

"I learned that the impact of a crater depends on the size, shape, density, and speed of the meteor or asteroid"

"Two words - awesome camp. I never knew you can learn and have fun at the same time. Like my teacher said 'There's always room for improvement.' Thanks for my awesome teachers."

"The greatest camp that I've ever been to other than robotics. This is awesome. If I could come again, I would."

"I loved engineering. It was the coolest thing all summer. Thank you!"

"It was great! I now want to be an engineer."
